

RELATED PRODUCTS

What Is Related Products?

Related Products is an ad unit located on the Product Detail page that suggests up to 3 relevant products.

Why Is It Beneficial?

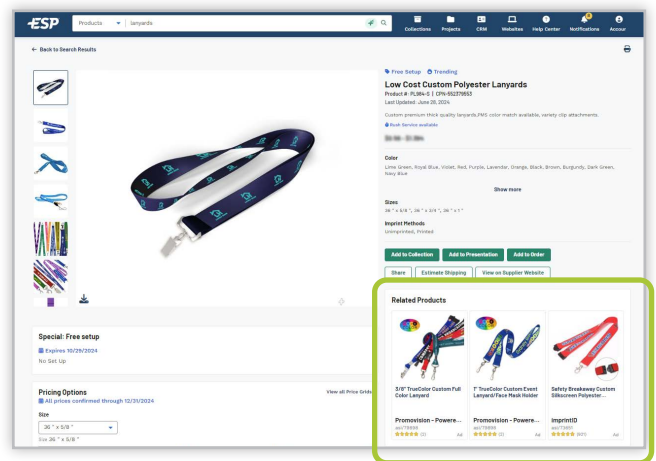

This ad unit is based on relevancy to the product on the detail page, offering alternative, relevant product ideas for the distributor. It delivers a great user experience and aids in their product sourcing activity.

Features Included

- Displays up to 3 relevant products
- Located above the fold on the Product Detail page
